INSTRUCTIONS

- 1) Keep a separate record sheet for each breeding season for each stallion used for breeding purposes.
- 2) This report must be on file in the office of the Appaloosa Horse Club of Canada before offspring may be registered. The Stallion Report and Breeder/Service Certificates shall be issued in accordance with ApHCC Bylaws, SECTION XII, B. 5.
- 3) Ask to see the registration certificate or for a copy of the certificate for each mare bred. This will assist you in the preparation of this report.
- 4) Be sure that the last recorded owner of the mare is the person who contracts the breeding to this stallion.
- 5) Give exact date(s) bred – if more than one service is given to a mare, be sure to record the different dates. Check mark the type of breeding in addition to recording the dates bred. That is, Natural (Hand) Service, Semen Transport, Pasture Bred, or Artificial Insemination.
- 6) Keep a copy of this report for your files and future use. Send the original to the Appaloosa Horse Club of Canada with the filing fees as listed on the front of this form.
- 7) Recorded/no characteristic stallions or mares, CPO or characteristic registered stallions or mares, registered Quarter Horses or registered Thoroughbreds must be bred to Regular registered Appaloosas (registered Appaloosas with coat pattern).
- 8) Stallions used for breeding must be DNA typed (or blood typed) before their offspring may be registered. Contact the ApHCC for DNA kits and further details.
- 9) If semen transport or embryo transfer is used, the stallion's and mare's DNA type (or blood type) report must be on file with the ApHCC.
- 10) If the stallion is registered with an Approved Breed Association, a stallion report must be filed with the ApHCC. A photocopy of both sides of the stallion's registration certificate showing the current ownership must also be filed with the ApHCC accompanied by the completed Registration Certification Form and the listing fee. If an Appaloosa stallion is breeding mares registered with an Approved Breed Association, a photocopy of both sides of the mare's registration certificate(s) must also be filed with the ApHCC accompanied by the completed Registration Certification Form and the listing fee.
- 11) If a mare is exposed to two or more stallions in less than 45 days, parentage verification of the resulting foal will be required before the resulting foal can be registered, with the owners paying the cost of DNA typing (or blood typing) the sire, dam and foal.
- 12) ApHCC registered stallions may be nominated to the Canadian Appaloosa Incentive Fund. Foals sired by nominated stallions will be eligible to earn money from the CAIF. Owners of CAIF enrolled stallions will receive a free listing in two issues of *The Appaloosa* and will receive reduced full page advertising rates in the Annual Stallion issue of *The Appaloosa*. The CAIF offers a stallion owner another marketing tool to make his stallion's service more attractive!

Nominations RECEIVED by Nov. 30 for the next breeding season...\$250.00 Nominations RECEIVED Dec. 1st to Dec. 31 for the next breeding season...\$300.00 If RECEIVED during the Nominated breeding year...\$350.00
